TROUBLE SHOOTING

Performance Issue, Uneven or Unstable- Make sure all nuts and bolts are tight on the product. If they are, then loosen all nuts and bolts 1 full turn counter-clockwise, then go back and tighten each bolt only ½ turn tight. Then do a final tighten turn for another ½ turn tight. Next, Make sure there are not any missing nuts or bolts. Third, ensure all parts on the product are not broken or defective. Finally, Re-read the assembly instructions or watch the product demonstration video to ensure you have correctly assembled or are using the product properly with factory specifications.

Missing Parts- The pictures, videos and images shown in this manual might have changed style or count due to the product being redesigned. So in rare cases the part may no longer be included or of a different style. However, if you think you are missing a part that is necessary to the assembly and use of your product, then first carefully double check all packaging for any parts you think are missing. Some parts might be hiding in the packaging or loose in an inner box.

COMPANY INFORMATION AND SUPPORT

ASSEMBLY INSTRUCTIONS

Step 1 – Take the main stand with the legs, flip it, loosen the knob and spread the legs using two hands. Use the locking knob and turn to tighten in place. (See **Figure 1**). Flip the stand and make sure that the legs are flat on the floor.

Step 2 – Take the middle chrome part and use the locking knob and insert it into one of the holes, this will act as the height maintenance of the drum throne as shown in **Figure 2**. After that insert the middle pipe and knob should be aligned and inserted in the cut out of the main stand.

Step 3 – Take the padded seat and slide the hole into the middle pipe and use the knob to tighten the seat in place. (See **Figure 3**)

Step 4 – For safety reasons, please always make sure to test the stability and safety of the product before use. Double check all nuts and bolts, knobs and connectors, make sure that these are tight and securely fastened before use of your product. Test the product under light use or light loads the first time to confirm assembly and structure of the product is correct.

***Please note that the seat can swivel left to right and vice versa by turning the knob below the seat loose, however, please keep in mind that this may cause the seat to come off.
